## CORRECT POSITIONING:

When installing the Aussie Traveller Cassette awning follow these instructions for correct installation of the cassette.

- Be sure to install the mounting bracket in the corresponding position of the arm connection block (see image) and ensure all installation brackets are on the same level.

## IMPORTANT:

- Installation must be performed by qualified personnel.
- Check for solid back and ground for installation. The fixing must be with bolts, supports, pegs and support rods. When using pegs or securing items, make sure there are no obstacles (e.g. cables, gas pipes, etc.).
- Installation of awning on any wall surface, the wall surface must be able to support the cassette and extended vinyl. Awnings arms (double swing arm), are to be secured when extended.
- For waterproof installation, use acid-free silicone or sika 252 filled boreholes.
- When drilling or installing, in order not to damage the cloth, the awning is fully expanded, and the surfaces of contact with other objects are padded with cloth.
- For the mounting height of the bottom mounting bracket, ask your dealer or manufacturer.
- The awning is used to cover the sun, not all-weather protection. The awning should be closed when not in use to prevent damage from storms, excessive wind, snow or heavy rain.

## Australian Consumer Law

The benefits of this warranty are in addition to any rights and remedies imposed by Australian State and Federal legislation that cannot be excluded. Nothing in this warranty is to be interpreted as excluding, restricting or modifying any State or Federal legislation applicable to the supply of goods and services which cannot be excluded, restricted or modified.

If you are a consumer as defined in the Australian Consumer Law: *Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.*
