

INSTALLATION

The Thirsty Nomad 5 in 1 Purifier can be installed permanently at the point of use (i.e. under your sink) in either 12mm blue water line or 1/4" (commonly referred to as 6mm) water line or used with standard hose fittings to fill your tanks or a water container.

When you buy a 5 in 1 and "Push Fitting" box – you will receive push fittings for both 12mm and 1/4" water line.

When you buy a 5 in 1 and select "Hose Fitting" box – you will receive our lead free 1/4" to 1/2" brass hose connector fittings that connect into a standard garden hose fitting.
